RE: **Keystone Solar Farm - Revised**
LCCD Plan ID: 12-17-002, East Drumore Township

Dear Mr. Rutt:

I have reviewed the Erosion and Sediment Pollution Control Plan dated **February 2, 2010**, and revised **January 17, 2012**, for the above referenced project. If the Erosion and Sediment Pollution Control Plan is fully implemented as described, it should be adequate to meet the intent of the rules and regulations adopted under the PA Clean Streams Law relating to erosion and sedimentation control.

The Conservation District reviews this plan solely to determine whether it is adequate to satisfy the requirements of 25 PA Code §102.1 *et seq.*, the erosion control regulations of the Department of Environmental Protection. By a determination that the plan is adequate to meet those requirements, neither the Conservation District nor the County assumes any responsibility for the implementation of the plan or the proper construction and operations of the facilities contained in the plan.

A representative of the Lancaster County Conservation District may conduct periodic inspections of the erosion and sedimentation control facilities during the construction of this project. The approved Erosion and Sediment Pollution Control Plan must be available at the site of the earthmoving activity at all times.

Yours for a better environment,

A handwritten signature in black ink that reads "Nathaniel Kurtz".

Nathaniel Kurtz
Erosion Control Technician
